The Control of Substances Hazardous to Health Regulations (COSHH), requirements of The Health and Safety at Work Act, The Consumer Protection Act and The Chemicals (Hazard Information and Packaging for Supply) Regulations, requires us to provide relevant information regarding our products in respect of its properties, correct use, storage/handling and disposal without risk to health.

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Product details:

Roofing Accessories: Dry valley systems and dry bonding gutters.

Application of the Product:
Roofing applications

Manufacturer/Supplier:
Marley Limited, Lichfield Road, Branston, Burton on Trent, Staffordshire, DE14 3HD
Tel: (01283) 722222

2. COMPOSITION/INFORMATION ON INGREDIENTS

Description:

Fully cured glass reinforced polyester sheeting and flashing which may also be supplied with a heat-sealed polyester protective surface film. Some products incorporate strips of adhered crushed glass granules to provide a key for mortar bonding.

3. HAZARDS IDENTIFICATION

Hazard Description:

Inhalation of potentially harmful dust may be generated as a result of cutting, trimming etc. dependent upon the method used. This may also irritate exposed skin causing a rash-like inflammation. These problems can be controlled by the use of a suitable dust extraction and or suitable personal protective equipment.

Possible foodstuff tainting effect. This can occur if sheet comes into direct contact or very close proximity to foodstuffs.

4. FIRST-AID MEASURES

General Information

There are no specific requirements when using roofing accessory products other than the appropriate treatment of minor injuries. Skin Contact – If irritation occurs, wash with mild soap and water. Seek medical attention if skin irritation continues.

Inhalation:

Not applicable in normal use.

Damage to skin:

Wash with water and apply sterile dressing.

Dust in mouth or eyes:

Irrigate liberally with water and seek medical attention.

Ingestion:

No effects reported. If ingestion of dust occurs during cutting, rinse mouth out with water and seek medical advice. Do not induce vomiting.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing agents:

Water, Foam, Carbon Dioxide or dry chemicals. Wear self-contained breathing apparatus.

These products are normally manufactured from fire retardant resins and therefore will not ignite easily. Burning can occur at high temperatures which will result in the generation of toxic and corrosive fumes.

6. ACCIDENTAL RELEASE MEASURES

Not applicable under normal conditions.

7. HANDLING AND STORAGE

Information for safe handling:

Ensure safe lifting techniques are applied when handling the products. Personal injury due to strains and ruptures should be avoided if the requirements of The Manual Handling Operations Regulations are implemented. All the products can have sharp edges, which can cut into the hands. Industrial gloves are recommended to be worn by operatives at all times.

The use of suitable Personal Protective Equipment (PPE) is recommended when working with these products.

Storage:

Store on end in rack or on flat surface. Material should be stored in a clean, dry environment.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

All the products can have sharp edges, which can cut into the hands. Industrial gloves are recommended to be worn by operatives at all times.

The use of suitable Personal Protective Equipment (PPE) is recommended when working with these products.

9. PHYSICAL AND CHEMICAL PROPERTIES

General Information:

10. STABILITY AND REACTIVITY

Stable under normal conditions.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity:

Burning can occur at high temperatures which can result in the generation of toxic and corrosive fumes.
