Order checklist

To process your orders swiftly, please provide the following information:

- ▲ Full delivery address, including house number and postcode
- ▲ Where possible, site contact name, phone number and vehicle off-load details
- ▲ Quotation number
- ▲ Quote price supplied against each item
- ▲ Order in pallet, banded or pack quantities
- ▲ Clear product descriptions, including colour
- ▲ Delivery restrictions/specific vehicle requirements
- ▲ Preferred delivery date
- ▲ In the case of collections, indicate the location where the product will be collected from

ORDERING, DELIVERY & COLLECTIONS

1 ORDERING

1.1 ORDER PLACEMENT

- 1.1.1 All orders must be emailed to orders@marley.co.uk
- 1.1.2 When your order is processed, an order acknowledgement will automatically be sent
- 1.1.3 Any discrepancies should be immediately communicated to Customer Services
- 1.1.4 For deliveries, you will receive an indicative delivery notification advising the delivery date, vehicle type, a full list of products, quantities and their weights
- 1.1.5 Any subsequent changes will display in My Account and you will receive a second order notification before your delivery

1.2 AMENDMENTS TO ORDERS

- 1.2.1 Amendments to delivery orders cannot be accepted after 9am 48 hours before the estimated delivery date, as detailed in the order acknowledgement
- 1.2.2 Amendments to orders can only be accepted if the order has not been shipped and in the case of additions, there is adequate space remaining on the vehicle

1.3 CANCELLATIONS

- 1.3.1 Cancellations will only be accepted up to 9am 48 hours before the estimated delivery date, as detailed in the order acknowledgment
- 1.3.2 Where product has not been shipped, a charge of 25% of the cancelled order value will be applied
- 1.3.3 Where a product has been shipped, a charge of 25% of the cancelled order value and a haulage charge will be applied, as per our returns policy

- 1.3.4 Persistent cancellation of orders, even with 48 hours' notice, could result in future orders not being accepted

1.4 MADE TO ORDER PRODUCTS

- 1.4.1 Written confirmation, accepting our made to order terms of sale, will be required before production is scheduled
- 1.4.2 Orders cannot be amended or cancelled once production has commenced
- 1.4.3 An indicative lead time for the supply of Made to Order products will be confirmed at the time of order
- 1.4.4 Orders must be despatched in full within 2 weeks of the product becoming available
- 1.4.5 Orders not delivered/collected within 2 weeks will automatically be delivered to your yard

1.5 SURCHARGES

- 1.5.1 A £100 surcharge will be applied to all orders that are below £500 (excluding VAT)
- 1.5.2 A specialised vehicle surcharge of £20 will be applied to all deliveries requiring a mechanical off-load, excluding solar PV and renewables, where a pallet charge applies
- 1.5.3 Deliveries outside of mainland UK are subject to a delivery surcharge
- 1.5.4 Marley SolarTile® products are subject to a £175 carriage charge per pallet. Where 6-12 pallets are required on one delivery, a charge of £1,050 will be applied
- 1.5.5 Shingles and Shakes are subject to a minimum £100 surcharge where orders fall below one pallet of Shingles or one pallet of Shakes.

2 DELIVERY

- 2.1.1 Deliveries must comply with Marley's minimum order quantities. See page 7 for details
- 2.1.2 Deliveries for concrete tiles, clay plain and clay pantiles will be in full pallet quantities only
- 2.1.3 Deliveries below minimum order quantities or value will be subject to an additional small order surcharge. See '1.5 Surcharge' for details
- 2.1.4 Battery units are classed as dangerous goods, therefore we can only deliver a maximum of 5 batteries per vehicle
- 2.1.5 All deliveries are made between 8:00am - 5:00pm at unspecified times
- 2.1.6 Charges will be applied to all deliveries which take over 1 hour
- 2.1.7 Someone must be on site to accept delivery, check the goods and sign the proof of delivery
- 2.1.8 Deliveries are made to kerbside and require hardstanding ground
- 2.1.9 Suitable off-load facilities need to be available for timber products
- 2.1.10 Customers must inform Marley of vehicle/access restrictions
- 2.1.11 Drivers have the right to refuse to take off-loaded material if deemed unsafe
- 2.1.12 Orders cannot be split and must be delivered on the same delivery date, in full to the same location
- 2.1.13 Marley endeavour to deliver on the agreed date, however the date or time cannot be guaranteed, and we do not accept liability of consequential losses
- 2.1.14 Guidance on deliveries is available to view on My Account at marley.co.uk/myaccount
- 2.1.15 For the safety of you and your customers and to prevent product damage, all Marley products should be stacked in accordance with the published stacking guidance, available to view on My Account at marley.co.uk/myaccount

2.2 LEAD TIMES

- 2.2.1 For the latest lead times, log into My Account at marley.co.uk/myaccount

ORDERING, DELIVERY & COLLECTIONS

3 COLLECTIONS

- 3.1.1 Orders must be placed with, and processed by, the Customer Services Department prior to the driver arriving on site
- 3.1.2 Customers are advised to have a valid sales document number which can be found on the order acknowledgment, before arriving on site
- 3.1.3 Collections must be made within 5 working days of the date stated on the order confirmation and any collection exceeding 5 days will be automatically cancelled
- 3.1.4 Collections for concrete tiles, clay plain tiles and clay pantiles will be in full pallet quantities only
- 3.1.5 Once the vehicle has been loaded it is the responsibility of the customer or their designated haulier to check the load and sign the proof of collection. Loads can be checked prior to departure in a designated safe location
- 3.1.6 Battery units are classed as dangerous goods, you can only collect a maximum of 5 batteries per vehicle
- 3.1.7 Guidance on customer collections is available to view on My Account at marley.co.uk/myaccount
- 3.2 VEHICLE LOADING**
- All drivers collecting products must adhere to the on site health and safety instructions as summarised below:
- 3.2.1 Follow instructions given by the loading team at all times
- 3.2.2 Remain in the cab of their vehicle with their engine switched off and parking brake applied during delivery
- 3.2.3 Make full and proper use of the lorry netting station where available
- 3.2.4 Ensure that they do not move their vehicle until instructed by the loader
- 3.2.5 Customers should employ methods of load security that do not require the driver to access the rear of the vehicle
- 3.2.6 We will not permit standing on top of the load at any Marley site without the use of a fall arrest system or netting station
- 3.3 SITE GUIDANCE**
- 3.3.1 All drivers collecting materials on site are required to use personal protective equipment (PPE) as listed below:
- Hi-visibility vest or jacket
 - Safety glasses or goggles (normal prescription glasses are not accepted as suitable eye protection)
 - Safety footwear must be worn whilst out of the cab
 - A hard hat with chinstrap must be worn whilst on the back of the vehicle (including crane)
- 3.3.2 No children or animals are allowed on site
- 3.3.3 No smoking is allowed on site other than in designated smoking areas

4 AFTERSALES

- 4.1 RETURNS**
- 4.1.1 For any product return, Customer Services must be notified within 7 days of receipt of the goods
- 4.1.2 Returns outside of these dates will not be accepted under any circumstances
- 4.1.3 Items returned will incur a 25% restocking fee and haulage charge where applicable
- 4.1.4 No refunds will be made in respect of haulage charges
- 4.1.5 All items must be returned in their original packaging and sufficiently protected to avoid any damage
- 4.1.6 Should the goods be returned and deemed unfit for resale, you will be charged for the goods in addition to the restocking and haulage charges already applicable
- 4.1.7 Once the goods have been received in a resellable condition, any sum debited to us will be re-credited to your account
- 4.1.8 If you do not return the goods delivered to you or do not pay the costs of delivery, we will be entitled to deduct the direct costs of recovering the goods from the amount to be re-credited to you
- 4.1.9 Made-to-order products are non-returnable
- 4.2 DAMAGES**
- 4.2.1 Notification of claims for damaged materials must in all cases be made within 24 hours of receipt (excluding weekends)
- 4.2.2 Once a delivery ticket is signed, Marley do not accept responsibility for damage or discrepancy
- 4.2.3 Full Terms and Conditions of Sale can be viewed at marley.co.uk/terms-conditions
- 4.3 FEEDBACK**
- 4.3.1 Please direct any feedback to either our Customer Services Team or via My Account marley.co.uk/myaccount

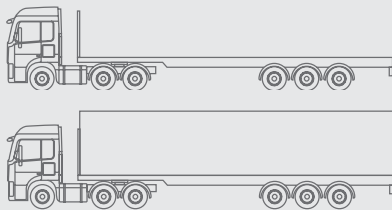

5 PALLET RETURNS

- 5.1.1 As part of our commitment to reduce waste packaging, we operate the Marley pallet returns scheme.
- 5.1.2 The scheme runs across our sites for concrete and clay plain product pallets. We can only accept Marley pallets that are in good condition, with no damage and where they contain no other waste materials. Our aim is to bring these pallets back into operation for future orders.
- 5.1.3 We will issue a credit for each Marley pallet received that matches this criteria.
- 5.1.4 For more information on how to take part in the Marley pallet return scheme and how to identify Marley pallets, please visit My Account marley.co.uk/myaccount

ORDERING, DELIVERY & COLLECTIONS

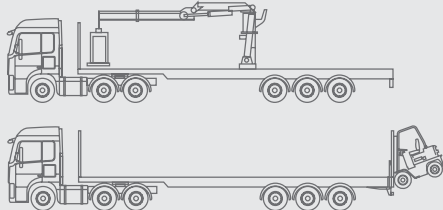

VEHICLES

Customers are required to advise if they require a restricted or unrestricted vehicle. For batten deliveries, please contact your customer sales advisor for details of the vehicle types and delivery options. A specialised vehicle surcharge of £20 will be applied to all deliveries requiring a mechanical off-load vehicle.

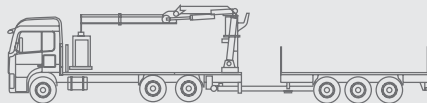

ARTIC

- ▲ Flat bed or taut-liner
- ▲ Largest carrying capacity and availability
- ▲ Can carry up to 26 tonnes
- ▲ Customer to provide off-loading facility

UNRESTRICTED WITH OFF-LOAD

- ▲ Artic with crane or moffett
- ▲ Can carry around 25 tonnes
- ▲ Off-loaded with either a moffett or crane depending on availability
- ▲ Where a moffett is chosen by Marley, the max. travel distance is 50 metres

WAGON AND DRAG

- ▲ Can carry around 22 tonnes
- ▲ Wagon and drag with either a moffett or crane off-load facility depending on availability
- ▲ Where a moffett is chosen by Marley, the max. travel distance is 50 metres
- ▲ Trailer will only be dropped with prior agreement and may be subject to a charge
- ▲ Allow 2 additional rolling days

SYSTEMS OVERVIEW

Our dry fix, ventilation and solar solutions are a key part of our roof system, enabling flexibility in design and detailing; offering weatherproofing, security and refined aesthetics, as well as providing excellent levels of ventilation.

They are also quick, straightforward and economical to install, and for the building owner, they require minimal ongoing maintenance but give maximum durability and long life.

INVERTER BACKER BOARD

Code		Price
		
MA79950	Marley Backer Board 800x1200x12mm	£18.50

The Marley Backer Board is a fire retardant mounting board.

SOLAR CONFIGURATOR

You can build your solar array using the Marley Configurator. It will choose the mix of roofing kits required and calculate the kWp output for your roof.

marley.co.uk/solarinstall

It's **more** than a roof

It's a Marley Solar Roof System.

LEARN MORE

You may just see a roof. But by selling a complete Marley Solar Roof System, you'll see the benefits of stocking all products from a single manufacturer, whilst making the most of the growing demand for roof integrated solar panels.

It's more than a roof,
it's an opportunity for stockists.

HOW DO I FIX MARLEY TILES?

For all sitework and installation information, get a copy of our comprehensive Sitework Guide or download the App: Search for 'Marley Roofing' at the App Store or Google Play.

Underlay and Battens

UNIVERSAL VAPOUR PERMEABLE UNDERLAY (BREATHABLE)

Universal vapour permeable underlay is a high performance breathable membrane for pitched roofs. Supplied in 1m x 50m rolls with integrated tape for sealing laps, the underlay is fully compliant with BS 5534 and suitable for all UK wind zones 1-5.

- ▲ Vapour permeable
- ▲ High tensile and tear strength
- ▲ Easy to handle
- ▲ Durable
- ▲ Fabric weight 170g/m²
- ▲ UV resistant
- ▲ BBA approved – Certificate No.19/5678
- ▲ Integrated tape for sealing laps
- ▲ Guidance lines for minimum laps
- ▲ For use in UK wind zones 1-5

Code	Weight	Dimensions	No. per pallet	Price
33150	170g/m ²	1m x 50m	25 rolls	£184.17

Minimum overlaps

Roof pitch	Horizontal laps		Vertical laps
	Not fully supported	Fully supported	
12.5° - 14°	225mm	150mm	100mm
>15°	150mm	100mm	100mm

UNIVERSAL 125 VAPOUR PERMEABLE UNDERLAY (BREATHABLE)

Universal 125 Vapour Permeable Underlay is a lightweight, low resistance vapour permeable roofing underlay. It is durable and flexible, allowing for easy installation, and offers temporary protection against wind driven rain, snow and dust.

- ▲ Fabric weight 125g/m²
- ▲ Vapour permeable
- ▲ High tensile and tear strength
- ▲ Easy to handle
- ▲ Durable
- ▲ UV resistant
- ▲ Integrated tape for sealing laps
- ▲ Guidance lines for minimum laps
- ▲ For use in UK wind zones 1-5

Code	Weight	Dimensions	No. per pallet	Price
33155	125g/m ²	1m x 50m	39 rolls	£96.94

Minimum overlaps

Roof pitch	Horizontal laps		Vertical laps
	Not fully supported	Fully supported	
12.5° - 14°	225mm	150mm	100mm
>15°	150mm	100mm	100mm

UNIVERSAL NON-VAPOUR PERMEABLE UNDERLAY (NON-BREATHABLE)

Universal non-vapour permeable underlay is a lightweight, high performance membrane for pitched roofs. Supplied in 1m x 45m rolls with integrated tape for sealing laps, the underlay is fully compliant with BS 5534 and suitable for all UK wind zones 1-5.

- ▲ Non-breathable
- ▲ High tensile and tear strength
- ▲ Easy to handle
- ▲ Durable
- ▲ UV resistant
- ▲ BBA approved – Certificate No.19/5673
- ▲ Lightweight alternative to traditional IF
- ▲ Integrated tape for sealing laps
- ▲ Guidance lines for minimum laps
- ▲ For use in UK wind zones 1-5

Code	Weight	Dimensions	No. per pallet	Price
33145	116g/m ²	1m x 45m	46 rolls	£96.94

Minimum overlaps

Roof pitch	Horizontal laps		Vertical laps
	Not fully supported	Fully supported	
12.5° - 14°	225mm	150mm	100mm
>15°	150mm	100mm	100mm

JB RED

Only battens that have been pre or factory graded to BS 5534 can be called or used as 'Roofing Battens'.

JB Red completely meets the BS 5534 and NHBC requirements for fully graded roofing battens and it is the only UK factory graded roof batten certified by the BBA (Certificate 19/5668). The battens are exceptionally strong and have full chain of custody certification and are currently the only roofing battens with CCPI verification.

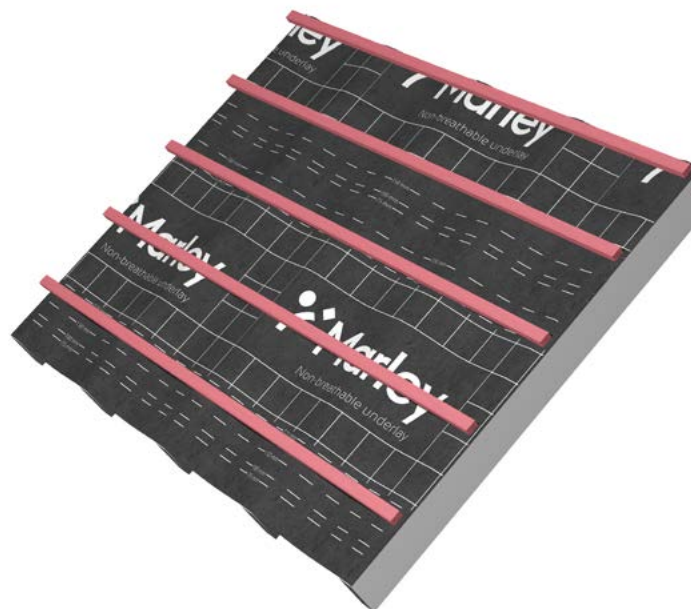

Its distinctive red colour means that it is highly visible on site, therefore Local Authority Building Control, NHBC and other inspectors can see that high quality, pre-graded and compliant battens have been used.

JB Red is manufactured using a state of the art, high speed camera and laser grading machine to ensure consistent levels of size and quality.

JB Red is Kopper's MicroPro® treated and carries a 60 year life expectancy against attack by wood rotting fungi and insects.

BENEFITS OF JB RED

- ▲ Pre-graded to all the size and strength requirements of BS 5534 for roofing battens. No further grading is required.
- ▲ Manufactured from slow grown, high grade timber and marked according to BS 5534 showing supplier name, origin/species, grade and size
- ▲ Only kiln dried sideboard timber is used to ensure stability and dimensional accuracy
- ▲ Reduced wastage through state of the art mechanical grading
- ▲ JB Red is LABC registered and is approved for use by local authorities
- ▲ The product and process are UKAS third party assessed by the BBA with a BBA Agrément certificate (19/5668)
- ▲ Currently the only roofing battens with CCPI verification (001500013/1025)
- ▲ Treated to BS 8417 Usage Class 2, using Koppers MicroPro® with a unique red colour
- ▲ 60 year life expectancy against insect attack and wood rotting fungi (when installed correctly in accordance with the requirements of Usage Class 2)

		Code	Unit	Price
	Roof Defence Intumescent Fire Barrier 6.3m length roll 100mm width	68020	each	£84.14
	Roof Defence Intumescent Ridge Cap 200mm length 100mm width	68010	each	£18.21

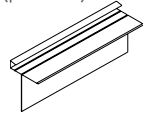

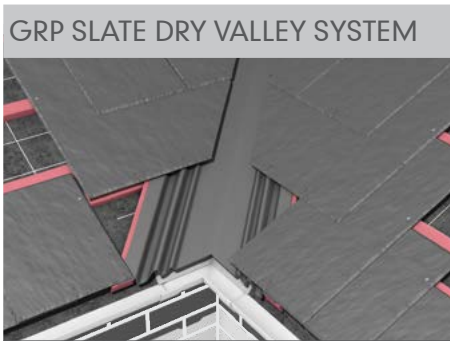

Simple and rapidly installed dry fix system providing 5mm continuous ridge ventilation. Compatible with fibre cement slates and ridges.

	Code	Price
Ridge roll (6m)	33010	£81.33
		
Fibre cement slate vented filler unit	41705	£1.23 (each)

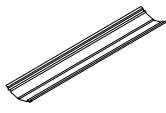

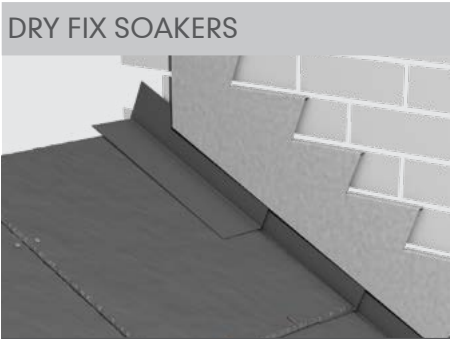

Easy-to-install continuous dry fixed verge system, providing neat weatherproof and durable finish for slates.

	Code	Price
Verge trim (3m) (pack of 8)	42206	£314.78
		

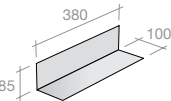

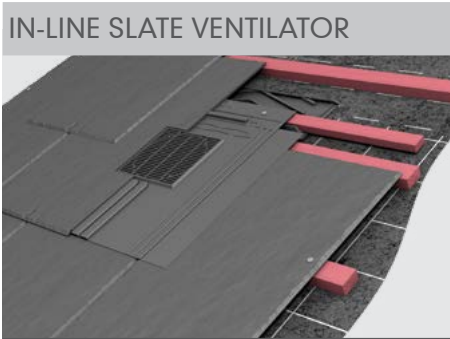

Developed to allow the designer freedom to specify a completely mortar-free roof, this system utilises the latest GRP technology. The advanced and unique parabolic gutter section improves discharge rates without added gutter depth.

	Code	Price
Valley trough (3m)	30578	£54.59
		

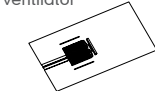

The Marley range of individual dry soakers are an easy to install, lightweight and highly affordable way to reduce both the material and labour costs associated with lead at side abutments.

	Code	Price
Dry soaker (for both left and right hand) (pack of 10)	30480	£25.43
		

Ideal for roofs where the normal ventilation airpath is blocked by valleys, abutments, hips, dormer windows and firebreaks or party walls or where it is not possible to incorporate standard eaves or ridge ventilation.

	Code	Price
In-line slate ventilator	EU_INLINESLATEVENT	£56.58
		
Flexible pipe	39091	£31.43

PLEASE NOTE:

For ventilated dry ridge and top abutment systems, please see page 32.

Shingles & Shakes

SHINGLES

Blue label 5X shingles are:

- ▲ 100% Heartwood – strong and durable
- ▲ 100% Edge grain – dimensionally stable
- ▲ 100% Clear – free from knots and defects

Shingle treatment	Price per bundle
Clean	POA
Preservative treated (brown)	POA

Estimating and coverage

Use	Max gauge	Coverage m ² per bundle
Vertical application (75° - 90°)	175mm	3.20
Roofs 22° - 74°	125mm	2.28
Roofs 14° - 21°	95mm	1.73

PRE-FORMED HIPS AND RIDGES

Hip/ridge treatment	Price per bundle
Clean	POA
Preservative treated (brown)	POA

Estimating and coverage

Use	Max gauge	Coverage linear metre per bundle
Roofs over 22°	125mm	4.50
Roofs 14° - 21°	95mm	3.40

PLEASE NOTE:

POA - price on application

A Shingle is sawn on both sides, giving a relatively smooth face and back.

A Shake is hand split along the natural grain of the wood and then sawn to produce one smooth surface.

1 Bundle of shingles is required for every 18 l/m as double starter course. Allow extra for cutting and waste, for a simple roof around 5%, for more complex roofs up to 20%.

24 Bundles Shingles on a full pallet.

20 Bundles Shakes on a full pallet.

Minimum order 1 pallet without delivery surcharge.

SHAKES

Western Cedar Shakes hand split, premium grade, PEFC certified.

Shake treatment	Price per bundle
Clean	POA
Preservative treated (brown)	POA

Estimating and coverage

Use	Max gauge	Coverage m ² per bundle
Vertical application (75° - 90°)	267mm	1.90
Roofs 30° - 74° ¹	190mm	1.39
Roofs 20° - 29° ²	250mm	1.83

¹ Maximum gauge 190mm if using a 3 ply construction with no interleaving or felt baffle.

² Must use felt interleaving or felt baffle between each course.

ACCESSORIES

Accessory	Price per kg
31 x 1.8mm Stainless steel nails	£21.11
45 x 2.65 Stainless steel nails	£19.83

Estimating and coverage

Product	Coverage
Shingles - 2 No. 31 x 1.8mm nails	1kg for 6 bundles
Ridges - 4 No. 45 x 2.65mm nails	1kg for 3 bundles
Shakes - 2 No. 45 x 2.65mm nails	1kg for 4 bundles

PLEASE NOTE:

A minimum order quantity of 1 pallet applies for Weatherboard. Accessories are subject to the standard minimum order value.

Off-loading and handling

- ▲ It is recommended that pallets are off-loaded using forks (not grabs or slings)
- ▲ Pallet load should be stored on a level surface
- ▲ Pallets should be stacked no more than 4 pallets high
- ▲ It is recommended that, to maintain the appearance and quality of the product, the boards are stored indoors in dry conditions
- ▲ For outside storage, outermost packaging should be removed to prevent condensation and boards should be raised above the surface of the ground and covered with a weatherproof tarpaulin.

Single boards

- ▲ Full length Weatherboard planks should be handled with care
- ▲ Carry planks edge downwards
- ▲ Keep hands as far apart as possible to provide maximum support for the plank.
- ▲ Do NOT carry planks with edges horizontal to avoid bowing and breaking
- ▲ While stored on the flat, they must be fully supported along their full length on pallets.
- ▲ To avoid scratching the face of boards, lift directly off the pallet
