

Closing Date	30 th June 2022
Job Title	Site Operations Manager
Location	Burton

Description

Site Operations Manager

Burton-On-Trent

Competitive Salary + Car allowance + Bonus

Marley is the UK's leading roofing manufacturer, pioneering the first fully warranted roof system and a fully integrated solar energy solution. Founded in 1924 and now with over 500 colleagues, we've joined forces with Marshalls plc, the UK's leading manufacturer of hard landscaping – bringing two strong heritages together!

Did you know our Burton-on-Trent site produces over 900,000 units per week across 5 production lines with a team of 80 colleagues? As market leaders and innovators in our sector, we are invested in both our evolution and our people, as such, we are investing over £20 million into developing new technology at Burton over the next few years!

We're looking for a new Site Operations Manager to lead this development following the retirement of our current site manager. This is a rare and exciting opportunity where you can have an immediate impact and see your new ideas come to life.

What's the mission?

This isn't your typical Site Operations Manager job but more of a General Manager role which will be responsible for leading the development and delivery of the site and people plan to ensure profitable and sustainable growth is achieved. You'll need a good balance of operational and people leadership skills as you develop a performance-driven culture, with emphasis on ownership, accountability, transparency and development of the facility and its people.

You'll be leading a team with 4 direct reports and be responsible for all operational activities and compliance, Health and Safety requirements, continuous improvement, people and site development. Building collaborative relationships with Purchasing, Suppliers Central Engineering, R&S, Management Accounts, and stakeholders within the Marshalls group to ensure that leverage and integration is maximised.

What are the mission-critical skills?

3+ years' experience in a leadership role in a medium/large manufacturing operation with relevant safety systems, quality standards, housekeeping standards etc - we're open to the type of manufacturing you've worked in!

Experience using SAP is essential

Able to demonstrate the use of data / analytical skills

Experience of budget control and project management

Experience of leading and delivering change within an unionised environment

IOSH Managing Safely / NEBOSH General Certificate desirable

Knowledge of OEE (Overall Equipment Effectiveness) would be a real advantage

Experience of continuous improvement/lean manufacturing techniques would be an advantage

Degree or equivalent in experience

What's next? This is a great opportunity to take the next step in progressing your career and joining our thriving, industry-leading company! We offer a competitive salary, company car allowance, bonus scheme, private healthcare, and many other benefits.

Equal Opportunities

Whoever you are and whatever your background, you'll find a fair and supportive workplace. You are unique and we want you to bring every part of who you are to work, every day. We're committed to ensuring equal opportunities for everyone. To us, this is more than a legal, moral, or ethical necessity – it's the right thing to do! We want our team to reflect the diverse nature of society and the communities we serve. Marley is a workplace where you are valued for the contribution you make, and where you can grow and develop by being entirely yourself!

Closing Date: 30 June 2022

Agencies: We've got this one thanks!
